There has been no issue more important in athletics in recent years than concussions and head injuries. The CYO has adopted a concussion policy that will be in effect for all CYO sports. This policy was formulated in conjunction with the physicians, athletic trainers and administrators of St. Vincent Sports Performance and the Athlete’s Concussion Alliance. The CYO wishes to thank everyone at St. Vincent Sports Performance who helped to develop this important concussion policy.

Concussions or mild traumatic head injuries are common injuries in sports resulting from a blow or bump to the head. Early recognition and appropriate treatment of concussions are vital for recovery, prevention of future concussions and the safe return to playing athletics.

With this in mind, the following policy pertaining to concussions will be followed in all CYO sports:

Any player who exhibits signs, symptoms or behaviors consistent with a concussion shall be immediately removed from the game, match or team practice until the player has passed a sideline concussion evaluation and test. Some of the warning signs of a concussion are loss of consciousness, headache, dizziness, confusion or balance problems.

Each team will be given a sideline concussion evaluation and test that has been prepared by St. Vincent Sports Performance so that all coaches will be able to recognize a possible player concussion. This sideline concussion form will list the many symptoms of a concussion and will include several tests to administer to the player with a possible concussion. These include a memory function test, a concentration test and a balance test all designed to help coaches recognize the signs of a concussion.

If the athlete answers incorrectly to any of the questions, exhibits any single symptom of a concussion or cannot perform the balance test, he may not under any circumstances, return to play for that day. If a player fails the concussion test, the player may not return to play or practice until the athlete has been cleared by a licensed health care provider. Written approval must be received before the young athlete may participate again.

After the sideline concussion evaluation and tests have been completed, the person conducting the evaluation and tests, the head coach and the player’s parents or legal guardians must sign the evaluation and test form attesting to the fact the concussion evaluation has been completed and whether the player has passed or failed the evaluation. A copy of the signed form must be mailed, faxed or emailed to the CYO Office with an additional copy given to the parish athletic director.
